

Testimonials of older workers and managers in Cyprus

Dr Eliza Patouris

CARDET

Older workers

The BEOLD training programme helped them to share their worries and main obstacles in relation to transition to retirement.

“It feels we are all in the same boat!”

Older Workers

“For me, exploring the possibility of Mentoring was something that gave me motivation to retire early. I retired and along with Mentoring at my company I have also become a Photographer!”

Mr. Andreas

Managers

“I was thrilled with the content, design and implementation of this program.

It is a new field of action for the Cypriot professional reality. I wish that all government and private parties would be informed about it so that they can apply practical measures in this direction.”

Managers

“This training is essential if we are to improve society as a state in the labour sector and improve the efficiency and quality of the work produced, without overlooking the human factor.”

Thank you!
